Portfolio: <https://perpetua-kamau.github.io/Portfolio/>

PROFESSIONAL SUMMARY

Results-driven data analyst with a strong foundation in finance, banking, and business performance reporting, combining over three years of experience in financial analysis, reporting, client portfolio management, and process improvement with hands-on expertise in data analytics. Skilled in transforming raw data into actionable insights through Microsoft Excel, Power BI, SQL and interactive dashboards. Experienced in data cleaning, KPI reporting, business intelligence, and dashboard development across healthcare, finance, retail, and sales projects. Adept at uncovering trends, automating reports, and presenting insights that support strategic decision-making. A curious, fast learner passionate about leveraging data to solve business problems and drive organizational performance.

KEY ACHIEVEMENTS

- Managed end-to-end client onboarding for banking products at Co-operative Bank, consistently meeting sales targets across loans, savings accounts, and insurance products over a 2+ year tenure.
- Supported government tender invoice processes at Capabuil Limited, tracking LPO compliance and reducing payment delays through disciplined follow-up.
- Contributed to credit appraisal and loan portfolio monitoring at Muki SACCO, helping maintain portfolio health through accurate risk assessments.
- Improved financial reporting consistency by developing standardized Excel reporting templates and reconciliation processes.
- Streamlined financial filing systems during internship at the Ministry of Environment, improving audit readiness and document retrieval efficiency.
- Designed and implemented an automated Excel sales analysis dashboard to monitor sales performance trends, enabling real-time insights and improving reporting efficiency for management decision-making.

WORK EXPERIENCE

Finance Assistant | Capabuil Limited

October 2025-Present

- Record and reconcile financial transactions across income, expenses, supplier payments, and training operations while ensuring data accuracy and audit readiness.
- Develop excel-based reports to monitor revenue, expenses, outstanding invoices, and cash flow trends.
- Perform financial data validation and reconciliation to improve reporting accuracy and support month-end closing activities.
- Analyze accounts receivable and collection trends, supporting timely follow-up and improved cash flow management.
- Support management reporting by preparing financial summaries that aid operational and strategic decision-making.

Personal Banker | Co-operative Bank, Nairobi,

June 2023 – September 2025

- Analyzed customer financial information to identify lending opportunities and recommend suitable financial products based on customer needs and risk profiles.
- Generated weekly, monthly, and quarterly business performance reports, providing insights into sales performance, portfolio growth, and branch KPIs.
- Monitored loan portfolio quality through trend analysis and proactive customer engagement to minimize credit risk.
- Performed customer data validation and maintained full compliance with Central Bank of Kenya (CBK) KYC requirements.

- Collaborated with credit, operations, and risk teams to improve customer onboarding and portfolio management.
- Used financial and customer data to identify cross-selling opportunities and contribute to branch revenue growth.

Business Innovation Associate | Capabuil Limited

October 2022 – May 2023

- Supported departmental budgeting and financial planning through data collection, analysis, and reporting.
- Developed monitoring and evaluation tools to measure project performance and support stakeholder reporting.
- Prepared presentations and analytical reports that informed business planning and operational improvements.
- Assisted in organizing national finance and governance conferences through project planning and data coordination.

Finance and Accounts Intern | Ministry of Environment and Forestry

January 2021 – May 2021

- Processed purchase orders, accounts payable/receivable, and monthly reconciliations under the government finance framework.
- Compiled documentation for internal audits and resolved transaction discrepancies to maintain compliance.
- Classified financial transactions to support budget tracking; contributed to monthly expenditure reports.
- Participated in internal audits by compiling necessary documentation and resolving discrepancies.
- Ensured proper coding and classification of financial transactions to support budget tracking and analysis.
- Collaborated with administrative staff to manage office supplies and facilitate smooth day-to-day operations.
- Learned and applied government financial regulations to support ongoing compliance efforts.
- Assisted in compiling monthly expenditure reports and supported departmental financial reviews.

Finance and Accounts Intern | Muki SACCO

January 2019 – April 2019

- Performed credit appraisals and prepared creditworthiness reports for loan applications.
- Executed bank reconciliations and monitored loan repayment trends to maintain SACCO portfolio health.
- Maintained financial records and supported administrative operations in line with cooperative policies.
- Contributed to the preparation of loan schedules and monitored repayment trends to maintain portfolio health.
- Maintained precise financial records and documentation, supporting transparency and audit readiness.
- Delivered responsive and professional service to members, enhancing client satisfaction and trust in SACCO operations.
- Supported financial reporting by gathering and organizing transactional data for management use.
- Ensured compliance with internal financial procedures and cooperative policies in all assigned tasks.
- Provided administrative support by managing correspondence, organizing documents, and maintaining data integrity.
- Engaged in internal reviews and identified process improvement opportunities to strengthen operational efficiency.

DATA ANALYTICS PROJECTS

Healthcare Analytics Dashboard | Microsoft Excel

Tools: Excel, Power Query, Pivot Tables, Pivot Charts, Slicers

- Cleaned and transformed hospital admissions data by resolving duplicates, inconsistent values, missing records, and formatting issues.
- Developed an interactive executive dashboard analyzing patient admissions, readmission rates, departmental costs, and average length of stay.
- Created KPI dashboards and dynamic visualizations to support healthcare management in identifying operational trends and cost drivers.
- Applied advanced Excel functions, Pivot Tables, and interactive slicers to improve data exploration and decision-making.

Sales Performance Dashboard | Microsoft Excel

Tools: Excel, pivot tables, power query

- Built an automated sales dashboard tracking revenue, product performance, customer trends, and regional sales.
- Designed KPI cards and interactive charts to monitor business performance and identify sales opportunities.
- Automated recurring reports, reducing manual reporting effort and improving reporting consistency.

Adventure Works Sales Analytics | Excel

Tools: Excel, Power Pivot, Pivot Tables

- Performed exploratory analysis on sales data to evaluate customer behaviour, revenue performance, and product profitability.
- Built interactive dashboards using Pivot tables, slicers, and charts to communicate business insights effectively.
- Identified key sales trends and growth opportunities that informed strategic business planning recommendations.
